# About Us

## Our Mission

To connect our community to the outdoors through sustainable recreation.

## Our Vision

The VVMTA's vision is a sustainable multi-use soft surface trail network connecting all communities in Eagle County to the outdoors. We envision a community of stewards striving to conserve our public lands through sustainable recreation opportunities. Through trail access and experiences, the community will improve its mental and physical health, quality of life, and economic vitality.

## Our Actions

The VVMTA advocates for soft surface trails, manages trail stewardship programs, maintains and builds trails, coordinates and trains volunteers, educates outdoor recreational users, and creates opportunities to access the outdoors. We provide our expertise, resources, and experience to support local land managers in various soft surface trail initiatives.

## What We Do

## Why We Do It

## Because trails create a stronger & healthier community

Trails contribute to our quality of life and improve our physical and mental health.

We encourage you to get outside, exercise, and connect with nature. But we need your help to ensure our trails and public lands are sustainable. Help us achieve conservation of our public lands through sustainable recreation.

**Experience, exercise, and enjoy!**

Our community values trails, public lands and cherishes the experience of connecting to nature.

**Connect, learn, and engage!**

Trail use continues to increase and it is more important than ever to care for our trails and public lands, educate trail users how to recreate responsibly, and provide sustainable recreation opportunities.

**Join in, help out, & have fun!**

Your support creates sustainable trail experiences and protects our natural environment. Your support will allow us and our future generations to recreate outdoors and connect with nature.

# The Eagle Bike Park

## Background & History

The Eagle community speaks up and voices its desire to have a bike park in the Haymaker area. Both the Mountain Rec Haymaker Area Master Plan and Town of Eagle's Open Space & Trails Master Plan identify the bike park as a community need.

## Funding

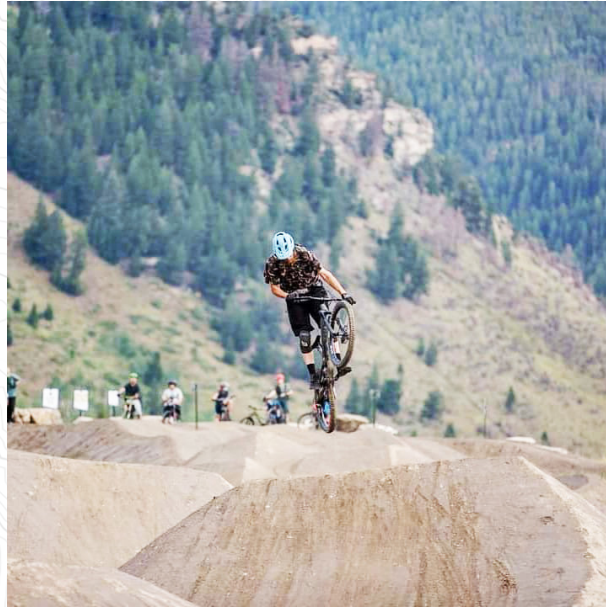

The Town of Eagle has **committed \$200,000** to kick off this project. We need to raise \$150,000 in addition to bring it to life!

## Who It's For

Kids on Striders to Experts sending it to the moon! Trails, jumps, and features for the most experience riders to an adult or youth learning to ride a bike for the first time.

## Community Asset

The free and open to the public bike park will provide a safe, fun, controlled environment for our community to enjoy for generations to come. It will be a gathering place for families and friends, events, camps, and clinics. The bike park will serve tens of thousands of rides every year!

# Design & Concept

## Start Zones

Elevated platforms for people to gather and choose their trail and adventure.

## Jump Zone

Progression opportunities for all from Beginner/Intermediate to Expert over/under jump lines. Get some air or keep your tires on the ground.

## Skills Zone

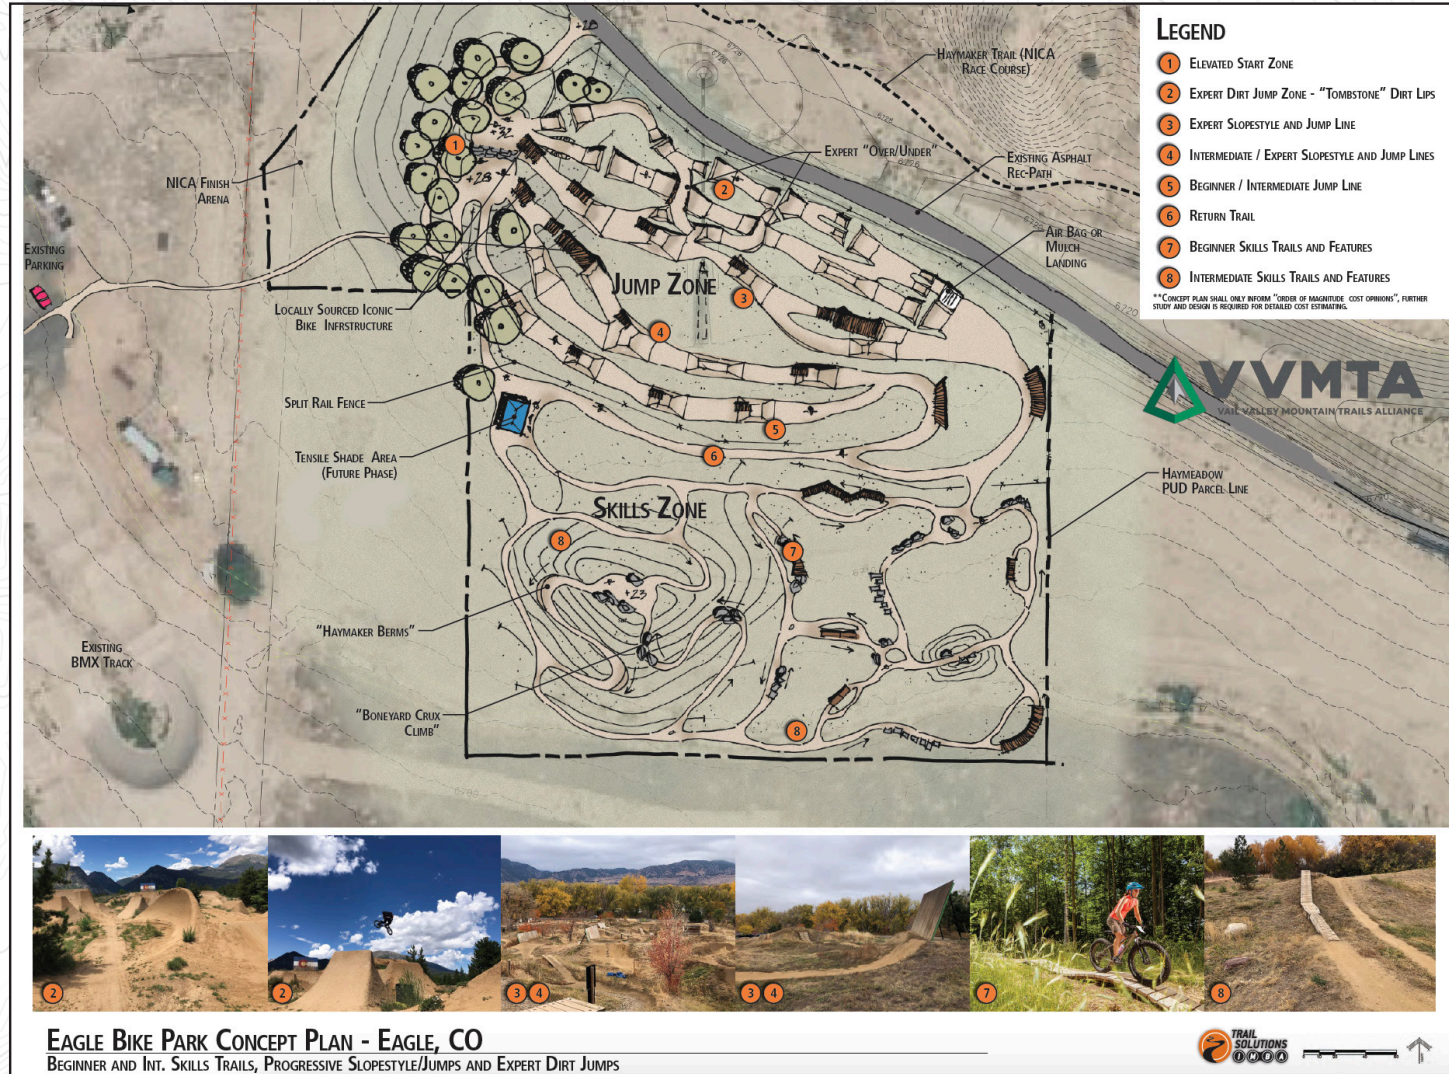

Iconic Eagle trail features, practice your riding skills, learn how to ride berms, climb technical features, and improve your bike handling skills.

## Bike Features

Whale's Tale, Step Up, Kickers, Skinny Ladders, Teeter Totters, Rock Gardens, Berms, Wall Rides, Podium Boxes, and more!

## Amenities

It is our goal to secure funding for a Phase 2 completion of the bike park which will include trees, landscaping, and a shade structure with picnic tables for families to gather.
